CHANGING THE GAME: WHAT IT WILL TAKE

The Opening Session of the Leading Minds conference will set the tone for the remaining sessions by looking at broad tenets – resources, partnerships, strategies, political commitment and public support – of what it will take to begin to address the vast and escalating challenge of mental health for children and young people.

08.00-08.15am INTRODUCTION
The Leading Minds Conferences are based on five principles: Connect – Listen – Share – Discuss – Act. These principles will infuse the meeting and are introduced here by the Office of Research-Innocenti and Red Zebra.

08.15-08.30am OPENING REMARKS FROM CO-HOSTS OF LEADING MINDS 2019
Henrietta H. Fore, Executive Director, UNICEF
Tedros Adhanom Ghebreyesus, Director-General, World Health Organization
Emanuela Claudia Del Re, Vice-Minister of Foreign Affairs and International Cooperation, Government of Italy

OUR MINDS, OUR FUTURES

08.30-09.45am LIVED EXPERIENCE
Understanding the mental health of children and young people begins with listening to them: their lived experiences, emotions, fears, coping strategies, and hopes.

The conference will begin with young people recounting their experiences of mental illness, the ways in which they cope, what they do to support others, and what must be done for young people to feel supported and thrive. The session will be designed and run by the Youth Leaders of the conference.

STATE OF THE SCIENCE AND PRACTICE

This Plenary session will look at the latest evidence on brain health in the earliest years of life, beginning in utero, through early and middle childhood and into adolescence and youth. The session will present the state of the art in the science on mental health for children and young people; the overall prevalence and spread of mental ill health across ages and geographies; causes of and contributing factors to mental ill health among the young; and methods of preventing and treating mental ill health and promoting healthy minds.

09:45-10.30am KEYNOTE ADDRESS
Vikram Patel, Pershing Professor of Global Health and Social Medicine, Harvard Medical School
Presentation followed by Q&A

Moderator: Ronald Flores Vega, Ambassador to Italy, Government of Costa Rica

SOLUTIONS AND BREAKTHROUGHS

A key focus of the Leading Minds conference is on solutions and breakthroughs for better mental health. These cover programmes, projects and interventions, partnerships and collaborations, and platform, technology and evidence. Discussions on solutions and breakthroughs will take place in moderated Breakout Sessions. Each participant will have a choice of two of four sessions that will run concurrently twice.

ROUND 1 OF PARALLEL SESSIONS

2.00-3.30pm  BREAKOUT 1 | Youth Engagement, Offline and Online
Young people are taking a leading role in supporting their own mental health and well-being and that of their peers. This Breakout session looks at some of the most promising solutions and breakthroughs led by young people, both offline and online and in diverse contexts.
Sala Pocetti, Istituto degli Innocenti

Co-Moderators
Chantelle Booysen and Amie Wade

Espresso Presentations (10 mins each max)
